SUMMARY

A results-driven final-year Information Technology student with hands-on experience in enterprise application development from a software engineering internship at Salesforce. Proficient in Java, Spring Boot, and building scalable backend systems. Passionate about solving complex problems with a strong foundation in Data Structures and Algorithms

EDUCATION

B.Tech in Information Technology, DR. J J Magdum College Of Engineering, Jaysingpur Shivaji University Kolhapur (GPA: 8.2)

Nov '22 — Present
Jaysingpur, India

HSC in Science, Rajendra Mahavidyalaya, Khandala, Satara, Shivaji University Kolhapur

Jun '21 — Mar '22
Khandala, India

SKILLS

Programming   C, C++, Java
Backend   Spring Boot, RESTful APIs
Databases   MySQL
Foundational Concepts   Data Structures, Algorithms, Object-Oriented Programming (OOP)
Collaborative Tools & Languages   IntelliJ IDEA, Eclipse, VS Code, GitHub, English, Hindi, Marathi
Languages   Hindi, Marathi, English

PROJECTS

Hostel Daily Attendance System - Android App   Jul — Present
- Developing an Android-based Hostel Attendance app track residents' attendance in real-time using firebase and user friendly interface.

YouTube Tag Generator
- Built a web application enabling users to extract YouTube tags and download video thumbnails, featuring an intuitive front-end and RESTful APIs for seamless data handling.

Bank Management System
- Built a Java-based console application that enables users to manage bank accounts and perform core banking operations such as account creation, deposits, withdrawals, and balance inquiries using OOP principles.

CERTIFICATIONS

Java, HackerRank Certified

SQL, HackerRank Certified

Problem Solving, HackerRank Certified

VOLUNTEERING

President, Information Technology Engineering Students' Association (ITESA)
Led the student association in planning and executing all departmental events, including technical workshops, seminars, and coding competitions.

Volunteer, SORT
Led the Mechanical Engineering division of a national-level event, managing a team of 15 volunteers to deliver a successful competition for over 250 participants from across the country.

EXPERIENCE

Software Engineering Intern   Jun '25 — Aug '25
Saleforce
- Developed cloud-based solutions using Salesforce CRM, Apex, Lightning Web Components (LWC)
- Implemented API integrations, automated workflows with Salesforce Flows, and custom triggers
- Enhanced Gained hands-on experience in cloud platforms, enterprise application development, and component-based architecture
- Optimized component performance and scalability by following best practices in modular code design
